

Safety Rules for Tech

1. Always wear eye protection when processing materials.
2. Never distract anyone using a machine.
3. Check safety guards before turning on any machine.
4. Push all cutting edges away from yourself and others.
5. Return all tools to their proper storage locations.
6. If unsure, ask before using any tool or machine.
7. Keep blades away from body (facing down or back) when carrying tools.
8. Think before you act.
9. Clean up when you are done.
